EDUCATION PROJECTS

BARAKAH CHARITY - SRI LANKA

September Report - 2026

Supporting learners and strengthening schools

Investing in Education. Building Better Futures.

Education remains one of the most important ways to create lasting change in the lives of children and young people. Throughout 2026, Barakah Charity continued to support students and schools by providing essential educational materials, financial assistance, skills training, improved facilities, and new learning spaces.

Our work this year reached students across different communities, helping families manage the cost of education while giving schools the facilities they need to provide a better learning environment.

From a school bag carried by a child to a new classroom built for hundreds of students, every project represents an investment in education and in the future of the next generation.

Stories of Hope & Impact

Barakah Charity's education projects in 2026 have helped create safer, healthier, and more supportive learning environments. From educational supplies and scholarships to improved classrooms, clean water, sanitation, skills training, and school facilities, these efforts have eased challenges for families and given students better opportunities to learn, grow, and build a brighter future.

stories

Student

"Before, I often found it difficult to focus during lessons because there was not enough space for everyone. Today, I have my own place to sit and study. I feel more confident in the classroom, and I look forward to coming to school."

Parent

"There was a time when my daughter would come home worried about using the school toilets. It affected her willingness to attend school. After the new facilities were completed, I noticed a real change in her. She goes to school without the same fear or hesitation."

Teacher

"A school is not only made of walls and furniture. It is a place where children discover their abilities. The support we received has helped us create an environment where our students can learn with greater confidence and take pride in their school."

Barakah Charity

Supporting learners and strengthening schools

As we look beyond 2026, Barakah Charity remains committed to strengthening education through practical support and long-term investment.

The needs of students and schools continue to grow, and our goal is to respond by creating more learning opportunities, improving school facilities, supporting students from financially challenged families, and investing in infrastructure that can benefit communities for many years.

Because when we invest in a child's education, we invest in the future of an entire community.
